SEDA-COG technology assessment available to local government

Municipalities and local governments in an 11-county region can get a technology assessment and action recommendation that includes a free computer from SEDA-Council of Governments (SEDA-COG).

This service assesses existing computer software, servers, network and connectivity, storage and backup, hardware, and more. SEDA-COG's Information Technology Group then makes a recommendation based on the assessment. Recommended changes may be implemented by another vendor or SEDA-COG (at an additional cost).

Tech Assessment

- Existing Software
- Servers / Workstations
- Network / Broadband
- Storage / Backup
- Hardware / Printers

Low cost option for local governments

The technology assessment and recommendation will be provided for \$450, which includes a **free computer while supplies last.**

Who is eligible?

SEDA-COG's region includes the following counties: Centre, Clinton, Columbia, Juniata, Lycoming, Mifflin, Montour, Northumberland, Perry, Snyder, and Union.

For more information and to learn about other services, contact SEDA-COG's Scott Kramer at 570-524-4491 or skramer@seda-cog.org.
